Dear Sir / Madam

Recycling on the Go Workshop Invitation

You will be aware from contacts that you have had with WRAP and / or Zero Waste Scotland that “Recycling on the Go” is a major theme for both organisations, with key actions in their business plans. Work is ongoing to fill some of the gaps in data, in recognition that this will be needed going forward.

Recycling on The Go (RoTG) describes the provision of infrastructure to enable individuals to segregate materials for recycling, primarily newspapers and certain items of packaging, which would otherwise be discarded in public litter bins. We recognise that the provision of RoTG infrastructure is not the responsibility of a single organisation. Local authorities have a responsibility for maintaining public space and therefore the provision of facilities on-street and in public parks falls to them. The provision of “Recycling on The Go” infrastructure in other public places such as shopping centres, railway stations and sporting arenas is at the discretion of the owner / manager of that facility.

We would like to gain a better understanding of some of the issues that have been identified as important in the development and operation of RoTG facilities from those organisations with expertise in this area. With this in mind, we have organised a series of workshops. As one of the organisations with experience in this area, we would like to invite you attend one of the three workshop. In preparation for the workshop, we would also like you to complete a pro-forma providing some of the more detailed (and perhaps sensitive) information. The aim is for all this work that we are currently undertaking to be used to develop comprehensive guidance on RoTG next year.

We understand that this is a busy time of year and this is short notice but we would appreciate your consideration. If you are interested in attending one of the workshops, all you have to do is email the acceptance form back to Elaine.kerrell@wrap.org.uk

Yours faithfully

Elaine Kerrell

Recycling on the Go, Project Manager
