# Regulation of insect farming

- Pollution Prevention and Control (Scotland) Regulations 2012
  - Schedule 1, Chapter 6.8, Part B, Sub-section (b) covers –
    - “Breeding maggots in any case where 5 kilograms or more of animal or of vegetable matter or, in aggregate, of both are introduced into the process in any week.”
- In short, a Part B permit is required.

# Statutory guidance applies:

# What about waste?

- No waste controls:

- Waste controls apply:

- Remember Animal By-Product rules!
- Disposal of waste from the process: liquid and solid
