

Scottish Materials Brokerage Service Update | April 2016

- **Residual workstream:** The PQQ for residual waste is still open with the deadline for responses extended to 2 May 2016 (previously 18th April).
- **Glass workstream:** The Programme Team is undertaking a series of one-to-one engagements with local authorities, with 15 visits having taken place thus far. The purpose of these visits is to discuss the forthcoming strategy for glass procurement from the brokerage.
- **Mixed recyclates workstream:** The Programme team are preparing the early draft of the strategy for mixed recyclates and are gathering data and intelligence on the specifications currently in use. The focus at this stage is gathering and modelling data to inform the initial procurement strategy.
